

ANATOL

Designed by Bastien Chapelle for Cider Edition

TABLE | COFFEE TABLE

The Anatole coffee table is a refined combination of noble materials and sheet metal, introducing a contemporary and iconic style into your living room or office. The perfection of a classic form, renewed by the duality of its materials. The Anatole coffee table consists of a sophisticated, imposing half-top in marble or wood veneer. The second half-top is contrasted with a perforated sheet metal work, with an airy, almost transparent pattern that is surprisingly delicate. This distinction of detail is found in the very marked veins of the marble, in the elegant junction of the legs. The table plays with our expectations and in the end offers simplicity of form and lightness. Ideal for a convivial space, to be combined with the Ingrid armchair by the same designer.

ANATOL

Designed by Bastien Chapelle

TECHNICAL DESCRIPTION

1 - Structure

Legs made of 16 mm diameter steel wire, powder coated in black

2 - Tray

The top is divided in 2, one side in marble or wood with a thickness of 24 mm and the other in microperforated metal

DEPTH OF RANGE

Coffee table big

Coffee table small

INFORMATION

Reference	ANA_TAB/BOI/MAR	ANA_GUE/BOI/MAR
Length	800 mm	450 mm
Depth	800 mm	450 mm
Height	400 mm	550 mm
Weight	12/17/22 Kg	6/9/10 Kg
Package volume ^{m³}	0,60 ^{m³}	0,4

PRODUCT CERTIFICATIONS

- FSC & CARB wood
- Indoor air emission quality A+ (ISO 16000)
- CFC free

MAINTENANCE

• METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

• WOOD

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

• MARBLE

Use a soft cloth to remove dust. If there are no specific stains, wipe the surfaces with a microfibre cloth moistened with warm water. Avoid acidic and corrosive substances.

GUARANTEE

- Product guaranteed for 2 years
- Manufacturing life 5 years

ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC, CARB certified
- Metal parts made of 100% recyclable steel, painted with A and E1 classification

ENVIRONMENTAL STATEMENT

• Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

• Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluosity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

• Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
