DELTA SLIM

Designed by Cider Edition

WORKSTATION I DESK / BENCH / MEETING TABLE / S T O R A G E

Delta Slim is a collection of desks and meeting tables that stands out for its simplicity and great adaptability. At the service of companies, both economical and customisable through its multiple finishes and configurations, Delta Slim can be used for both closed and open offices, coworking spaces or modular meeting rooms, thanks to its intelligent and evolving support structure. Its sober melamine top and triangular legs are what make it so special. With its Italian design and manufacture, Delta Slim scores high points with NF Environment certification.

DELTA SLIM

Designed by Cider Edition

TECHNICAL DESCRIPTION

1 - Tray

High resistance melamine top, 25 mm thick, with a density of +/-3% of 770 $^{\rm kg/m3}$. Smooth or lightly textured melamine decor sheet according to the choice of finishes.

Counterbalance in melamine with the same finish. 2 mm thick ABS edges as standard, finished as per tray.

4 - Cylinders

20 mm diameter PVC adjusting cylinders. Adjustment stroke of 13 mm

2 - Structure

U-shaped support structure (straight leg) or Ashaped support structure (sloping leg) with two metal crosspieces per table top. The leg is attached to the metal frame by means of metal inserts and screws in the side lintels to provide maximum rigidity for the table and ensure that the top is fixed in place in a high-quality and durable manner.

3 - Legs

Metal base with triangular section 25x50 mm, epoxy powder coated. Invisible high quality welding on the top of the leg.

SETTINGS

For bench or multiple meeting table configurations and for central extension modules, an intermediate steel base with epoxy powder coating reinforces the structure. It is set back for user comfort, and provides a more aesthetic and economical look.

• TRENDY COLORS LEATHER JOLLY - carmen

• LEATHER DANI - Florida

• EXTRA LEATHER DANI - nabuk <u>SORENSEN</u> - royal nubuk, dunes

MAINTENANCE

• MELAMINE & WOOD SURFACE

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

FABRIC

To maintain the fabric, regularly remove dust and lint with a hoover. If a stain occurs, wipe the fabric immediately with an absorbent, lint-free sponge or cloth. Rub the stain with a damp cloth soaked in ordinary household distilled water to prevent water spots from forming on dark fabrics after drying. Test a hidden area beforehand. For stubborn stains: lightly brush the stains with a soft, dry brush.

GUARANTEE

- 5 year warranty
- 10-year manufacturing life

ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC & CARB certified
- · Legs and metal parts made of 100% recyclable steel, painted with A and E1 classification
- Songs with A and E1 classification
- Screen upholstered in Oeko Tex or Cradle to Cradle certified fabrics, depending on the choice of finishes. Optional interior in PET, made from recycled plastic bottles

• Our fabrics are Global Recycled Standard / EU ecolabel / RAL UZ / Green Guard/Blue Angel certified depending on the choice of finish.

ENVIRONMENTAL STATEMENT

Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluousness for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
